

# Healthcare consulting services

KEEPING OUR CLIENTS FOCUSED ON PATIENT CARE

WK's healthcare team monitors industry trends and develops practical, cost-effective recommendations for our clients' most important financial concerns. These strategies help keep clients focused on one thing: providing exemplary care for their patients.

In addition to tax, audit and accounting services, WK can assist medical and dental practices, retail pharmacies and other entities in the medical service industry in the following areas.

- Operational reviews, assessment of policies, scheduling, cash collection, charge capture, accounts receivable and denial management
- Billing and documentation reviews
- Compliance program review
- Assessment of management tools, including key performance indicators and metrics
- Managed care contracting and reimbursement review
- Employee benefit plan design, administration and audit
- Physician compensation analysis
