

Insurance

HELPING OUR CLIENTS NAVIGATE TODAY'S REGULATORY ENVIRONMENT

WK has substantial experience in providing professional services for insurance entities, including property and casualty, life, and captive insurance companies, as well as farm mutual insurance companies, public entity risk pools, and title and marine property and casualty insurance providers.

In addition to audit and tax compliance services, we can offer clients data-driven consulting services that could increase profitability in a difficult economic and regulatory environment.

Our access to a variety of technical resources allows WK to offer our insurance clients timely and responsive service to help your business keep moving forward. WK augments its knowledge of issues related to the insurance industry through its memberships in the Missouri Captive Insurance Association and the Insurance Accounting and Systems Association as well as continuing our education through various industry-specific resources.
